About this segment

Silver and Gold

This is the

#1

dominant segment
for this area

In this area

56.9%

of households fall
into this segment

In the United States

0.8%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Almost the oldest senior market, Silver and Gold is the most affluent. The affluence of Silver and Gold has afforded the opportunity to retire to sunnier climates that feature exclusive communities and vacation homes. These consumers have the free time, stamina, and resources to do what they enjoy. This market is smaller but growing.

Our Neighborhood

- Residents of Silver and Gold prefer a more bucolic setting, but close to metropolitan cities.
- Predominantly single-family, owner-occupied homes that have a median value of \$385,700.
- Neighborhoods include seasonal or vacation homes, reflected in the high vacancy rate of 43%.
- Mostly older married couples with no children, average household size is 2.03.

Socioeconomic Traits

- 47% have college degree(s).
- Primarily retired, but many still active in the labor force, participation rate of 41%.
- Self-employment is the highest across all Tapestry markets.
- More than half of the households receive income from wages/salaries, Social Security, or investments, many drawing retirement income.
- Connected, but primarily to get news and track investments, more likely to own an e-reader or tablet than a smartphone.

Market Profile

- Partial to luxury cars or SUVs; highest demand market for convertibles.
- Active seniors that maintain a regular exercise regimen and pay attention to healthier eating habits.
- Pursue the luxuries that well-funded retirement affords: an active social life, travel, hobbies, and sports (especially golf and boating) and liberal use of home maintenance services to minimize chores.
- Avid readers of newspapers, magazines (sports and travel), and books (audio, e-readers, or tablets).
- Generous supporters of charitable organizations.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2024. Update Frequency: Annually.

About this segment

Rural Resort Dwellers

This is the

#2

dominant segment
for this area

In this area

43.1%

of households fall
into this segment

In the United States

1.0%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Although the Great Recession forced many owners of second homes to sell, Rural Resort Dwellers residents remain an active market, just a bit smaller. These communities are centered in resort areas, many in the Midwest, where the change in seasons supports a variety of outdoor activities. Retirement looms for many of these blue-collar, older householders, but workers are postponing retirement or returning to work to maintain their current lifestyles. Workers are traveling further to maintain employment. They are passionate about their hobbies, like freshwater fishing and hunting, but otherwise have very simple tastes.

Our Neighborhood

- Housing is owner-occupied, single-family homes, with some mobile homes. A strong market for second homes, these rural areas contain homes valued near the US median. Over half of the housing units are vacant due to a high seasonal vacancy rate.
- In this older market, 42% of households consist of married couples with no children at home, while another 28% are single person. Married couples with children at home have older school-age children.
- Set in scenic rural locations with proximity to outdoor activities, two vehicles are essential to get around.

Socioeconomic Traits

- Rural Resort Dwellers residents are close to retirement. They've accumulated wealth and begun to shift their portfolios to low-risk assets. These active residents continue to work in skilled occupations.
- Simple tastes and modesty characterize these blue collar residents. They shop for timeless, comfortable clothing, but only when something must be replaced. They pay little attention to advertising and usually stick to the brands they know.
- They spend time with their spouses and also maintain a social calendar.

Market Profile

- Residents drive older domestic vehicles and prefer to spend their disposable income on gear to support their hobbies, which include freshwater fishing, hunting, and motorcycling.
- At home, Rural Resort Dwellers residents spend any free time working on their vehicles and maintaining their gear. They make frequent trips to their local hardware store for parts and tools. These hands-on consumers are also passionate about vegetable gardening.
- Due to their remote locations, these neighborhoods have satellite dishes. A few residents still rely on dial-up modems to stay connected. They don't access the Internet often but will make online purchases for items difficult to find in nearby stores.
- Their taste in TV shows reflects their hobbies—National Geographic, Discovery Channel, and the Weather Channel.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2024. About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
