About this segment

Prairie Living

This is the
#1
dominant segment
for this area

In this area
37.9%
of households fall
into this segment

In the United States
1.0%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Prairie Living is Tapestry Segmentation's most rural market, comprising about 1.2 percent of households, located mainly in the Midwest, with a predominance of self-employed farmers. These agricultural communities are dominated by married-couple families that own single-family dwellings and many vehicles. Median household income is similar to the US, and labor force participation is slightly higher. Faith is important to this market. When they find time to relax, they favor outdoor activities.

Our Neighborhood

- About four-fifths of households are owner occupied.
- Dominant household type is married-couples with no children.
- Most are single-family homes (87%) built before 1980; a higher proportion were built before 1940.
- Higher percentage of vacant housing units is at 16.5%.
- Most households own 2 or 3 vehicles; this is the highest ranked market for owning 4 or more vehicles.

Socioeconomic Traits

- More than half have completed some college education or hold a degree.
- Labor force participation rate slightly higher at 65%.
- Wage and salary income for 72% of households plus self-employment income for 23%.
- Faith and religion are important to these residents.
- Tend to buy things when they need them, rather than when they want them or to be trendy.
- Somewhat resistant to new technology.
- Creatures of habit when purchasing food items.

Market Profile

- Many own a truck, riding lawn mower, and ATV/UTV and have a satellite dish.
- They purchased plants and seeds in the past year for their vegetable garden, where their tiller comes in handy.
- They favor banking in person, have noninterest checking accounts, invest in CDs (more than 6 months), and have term/whole life insurance.
- They are pet owners.
- Leisure activities include fishing, hunting, boating, camping, and attending country music concerts.
- Residents prefer to listen to faith and inspirational, as well as country music on the radio.
- They read the local newspaper as well as home service, and fishing/hunting magazines.
- They contribute to religious organizations and belong to religious clubs.
- Walmart is a favorite shopping stop; Subway is a favorite eating spot.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2024. Update Frequency: Annually.

About this segment

Midlife Constants

This is the

#2

dominant segment
for this area

In this area

23.8%

of households fall
into this segment

In the United States

2.4%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Midlife Constants residents are seniors, at or approaching retirement, with below average labor force participation and above average net worth. Although located in predominantly metropolitan areas, they live outside the central cities, in smaller communities. Their lifestyle is more country than urban. They are generous, but not spendthrifts.

Our Neighborhood

- Older homes (most built before 1980) found in the suburban periphery of smaller metropolitan markets.
- Primarily married couples, with a growing share of singles.
- Settled neighborhoods with slow rates of change and residents that have lived in the same house for years.
- Single-family homes, less than half still mortgaged, with a median home value of \$154,100.

Socioeconomic Traits

- Education: 63% have a high school diploma or some college.
- At 31%, the labor force participation rate is low in this market.
- Almost 42% of households are receiving Social Security; 27% also receive retirement income.
- Traditional, not trendy; opt for convenience and comfort, not cutting-edge. Technology has its uses, but the bells and whistles are a bother.
- Attentive to price, but not at the expense of quality, they prefer to buy American and natural products.
- Radio and newspapers are the media of choice (after television).

Market Profile

- Prefer practical vehicles like SUVs and trucks (domestic, of course).
- Sociable, church-going residents belonging to fraternal orders, veterans' clubs and charitable organizations and do volunteer work and fund-raising.
- Contribute to arts/cultural, educational, health, and social services organizations.
- DIY homebodies that spend on home improvement and gardening.
- Media preferences: country or movie channels.
- Leisure activities include movies at home, reading, fishing, and golf.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Heartland Communities

This is the

#3

dominant segment
for this area

In this area

22.7%

of households fall
into this segment

In the United States

2.2%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Well settled and close-knit, Heartland Communities are semirural and semiretired. These older householders are primarily homeowners, and many have paid off their mortgages. Their children have moved away, but they have no plans to leave their homes. Their hearts are with the country; they embrace the slower pace of life here but actively participate in outdoor activities and community events. Traditional and patriotic, these residents support their local businesses, always buy American, and favor domestic driving vacations over foreign plane trips.

Our Neighborhood

- Rural communities or small towns are concentrated in the Midwest, from older Manufacturing cities to the Great Plains.
- Distribution of household types is comparable to the US, primarily (but not the majority) married couples, more with no children, and a slightly higher proportion of singles that reflects the aging of the population.
- Residents own modest, single-family homes built before 1970.
- They own one or two vehicles; commutes are short.

Socioeconomic Traits

- Retirees in this market depress the average labor force participation rate to less than 60%. More workers are white collar than blue collar; more skilled than unskilled.
- The rural economy of this market provides employment in the manufacturing, construction, utilities, healthcare, and agriculture industries.
- These are budget savvy consumers; they stick to brands they grew up with and know the price of goods they purchase. Buying American is important.
- Daily life is busy, but routine. Working on the weekends is not uncommon.
- Residents trust TV and newspapers more than any other media.
- Skeptical about their financial future, they stick to community banks and low-risk investments.

Market Profile

- Traditional in their ways, residents of Heartland Communities choose to bank and pay their bills in person and purchase insurance from an agent.
- Most have high-speed Internet access at home or on their cell phone but aren't ready to go paperless.
- Many residents have paid off their home mortgages but still hold auto loans and student loans. Interest checking accounts are common.
- To support their local community, residents participate in public activities.
- Home remodeling is not a priority, but homeowners do tackle necessary maintenance work on their cherished homes. They have invested in riding lawn mowers to maintain their larger yards.
- They enjoy country music and watch CMT.
- Motorcycling, hunting, and fishing are popular; walking is the main form of exercise.
- To get around these semirural communities, residents prefer domestic trucks or SUVs.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2024. About this segment

Small Town Sincerity

This is the

#4

dominant segment
for this area

In this area

15.7%

of households fall
into this segment

In the United States

1.8%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Small Town Sincerity includes young families and senior householders that are bound by community ties. The lifestyle is down-to-earth and semirural, with television for entertainment and news, and emphasis on convenience for both young parents and senior citizens. Residents embark on pursuits including online computer games, renting movies, indoor gardening, and rural activities like hunting and fishing. Residents keep their finances simple—paying bills in person and avoiding debt.

Our Neighborhood

- Reside in small towns or semirural neighborhoods, mostly outside metropolitan areas.
- Homes are a mix of older single-family houses (61%), apartments, and mobile homes.
- Half of all homes are owner-occupied. Median home value of \$92,300 is about half the US median.
- Average rent is \$639.
- This is an older market, with half of the householders aged 55 years or older, and predominantly single-person households

Socioeconomic Traits

- Education: 67% with high school diploma or some college.
- Labor force participation lower at 52%, which could result from lack of jobs or retirement.
- Income from wages and salaries, Social Security or retirement, increased by Supplemental Security Income.
- Price-conscious consumers that shop accordingly, with coupons at discount centers.
- Connected, but not to the latest or greatest gadgets; keep their landlines.
- Community-oriented residents; more conservative than middle-of-the-road.
- Rely on television or newspapers to stay informed.

Market Profile

- Small Town Simplicity features a semirural lifestyle, complete with domestic trucks and SUVs, ATVs, and vegetable gardens.
- Residents enjoy outdoor activities like hunting and fishing as well as watching NASCAR and college football and basketball on TV.
- A large senior population visit doctors and health practitioners regularly.
- However, a largely single population favors convenience over cooking, frozen meals and fast food.
- Home improvement is not a priority, but vehicle maintenance is.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
